

Make Your Leader's Job Easier.

Three tools — a working framework.

01

THE HOW

Recommendations, not Questions.

Bring two options, your lean, and the reasoning — not an open-ended ask. You are wired for this: Discernment is your genius. Trust it forward.

THE FORMAT

"Here are two options. I'm leaning A because—. Approve, or should I keep exploring by [when]?"

02

THE WHEN

Tuesday, not Friday.

Surface slips, blockers, and complexity the moment you see them. Bring a proposed path forward, not just the problem. Early word, fewer surprises.

THE ONE-LINER

"Run ahead. I'll catch up."

03

THE WHAT

Ship-Ready, not Fresh-Eyes.

Send work at 99% with rationale baked in — not at 90% for me to find the gaps. Carry your decision and your reasoning, not your uncertainty.

THE RESULT

More autonomy. Faster approvals. Real authority. The trust flywheel turns.

Run ahead. I'll catch up.
